## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8, drawn to a washing system.

Group II, claim(s) 9-16, drawn to a method of controlling a washing system.

4. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature, controlling the laundry device using a control algorithm based on laundry information receiving through an information tag, linking Groups I-II, is disclosed by JEON (USPA 2002/0046429).

5. Evidence of lack of unity between the groups is found in JEON (USPA 2002/0046429). JEON teaches controlling a washing machine using control information generated on the basis of data collected from the washing machine. See Fig. 4 and Claim 1, page 3. Thus, the special technical feature, control of a laundry device using a control algorithm based on laundry information received through an information tag, of the claimed invention is not found to define a contribution over the prior art.

Art Unit: 1792

6. A telephone call was made to Mark Kresloff on 6 February 2009, to request an oral election to the above restriction requirement, but did not result in an election being made.

7. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

8. The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to JASON Y. KO whose telephone number is 571-270-7451. The examiner can normally be reached on Monday-Thursday; 9:30am-7:00pm.

10. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, MICHAEL BARR can be reached on 571-272-1414. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
